3. **One World Needs Assessment Presentation**

- One World's PowerPoint presentation on the needs assessment for the South Omaha portion of Subcouncil 5(attached) included demographics, asset mapping, survey findings, barrier identification, SWOT analysis and public meeting findings.
- Conclusions presented centered around a parent center to provide educational and wrap around support to make parents stronger and more engaged in their children's academics. Services in the parent center that would provide the most leverage for our dollars would include parenting classes, GED/ESL classes and outreach navigation services. Services would need to be culturally responsive, linguistically approachable and provide a safe resource for parents. The amount of physical space needed for these services was addressed. There are models in both San Antonio and Illinois that were also considered.
- Feedback from meeting participants supported the conclusions.
- The next steps are for Ted and Renee to do some homework and put together a program design for the Subcouncil to consider. Ted and Renee will also contact the City of Omaha to start some more formal conversations about the building and work with Nick at RDG to see if the building would support the program design. At some point the Subcouncil will want to have more discussion as it relates to the amount of hubsite dollars available and how much is envisioned for the site in Omaha and Bellevue. Ted and Renee will work with Brian Gabriel to put together some data to consider in making this decision.

4. **Date, Time and Location of Next Meeting:** To Be Determined

5. **Adjournment:** 9:35 a.m.
